

Subtle nuances.

LA VELA II has been designed for people who have a sense for subtle beauty and appreciate fine differences and nuances, who prefer an elegant overall design to

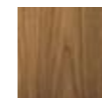

short-lived trends. Three finishes and two accent colours plus high-gloss effects and glass fronts offer perfect solutions.

LA VELA II

Style and practicality.

The interior of your bedroom should perfectly suit your individual design ideas. It should be durable, functional, comfortable and beautiful. LA VELA II effortlessly combines

all of these requirements with a unique choice of practical features, which will be useful at any age.

1 A classic design with a contemporary twist: the 150 cm wide, 40 cm deep and 90.8 cm high chest has four drawers with divided interiors to offer plenty of storage.

2 A small table is a useful addition to any bedroom, either as a bureau or a dressing table. The LA VELA II functional dressing table can be supported by chests on one (as shown here) or on both sides.

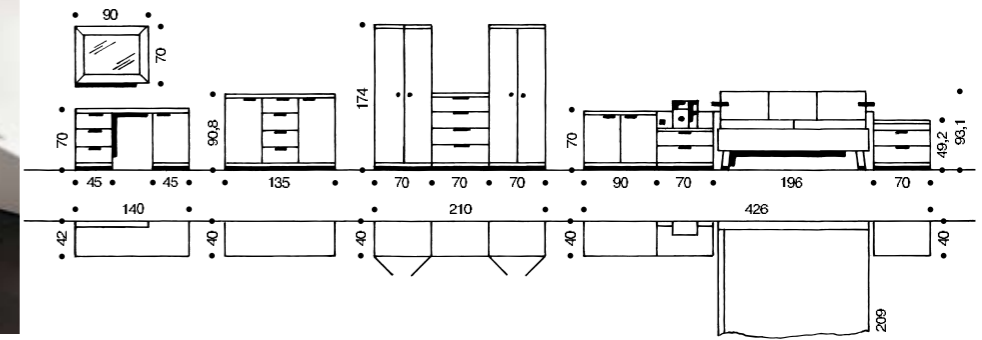

3 Headboard lighting: ambient lighting creates a beautiful atmosphere. The swing-out LED swan-neck bed reading light provides light where it is needed.

4 Watching TV in bed is enjoyable: folding door wardrobes with integrated TV functional unit close the TV compartment with a stylish sliding door.

Visionary.

A spacious bedroom enhances the quality of living. If you wish to maintain this sense of scale, then low LA VELA II units will be the perfect choice to create the necessary

storage. White lacquer with walnut accents achieves a light and airy feel.

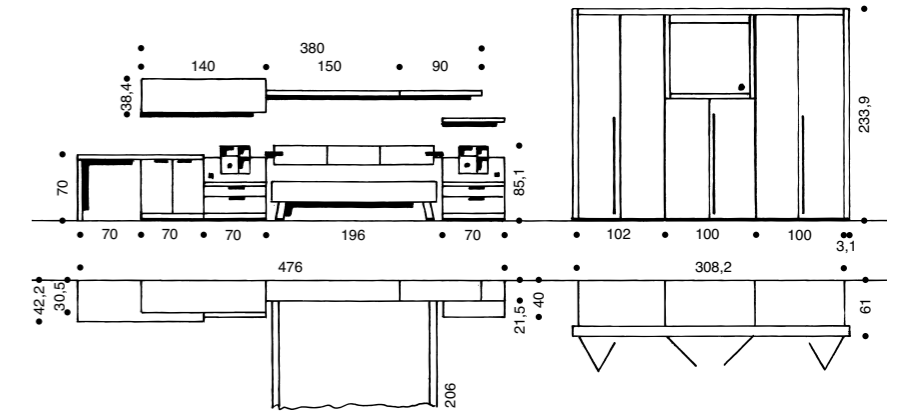

Version: walnut, white lacquer Chair: D 20

Surfaces.

There is a choice of structured beech and walnut veneer as well as white lacquer finishes. Sand lacquer is available as an accent colour for single units, suspended units can be supplied with white and sand lacquered glass fronts,

wardrobe fronts are available in high-gloss sand or high-gloss white and the leather on the headboard overlays is offered in white, sand or nougat.

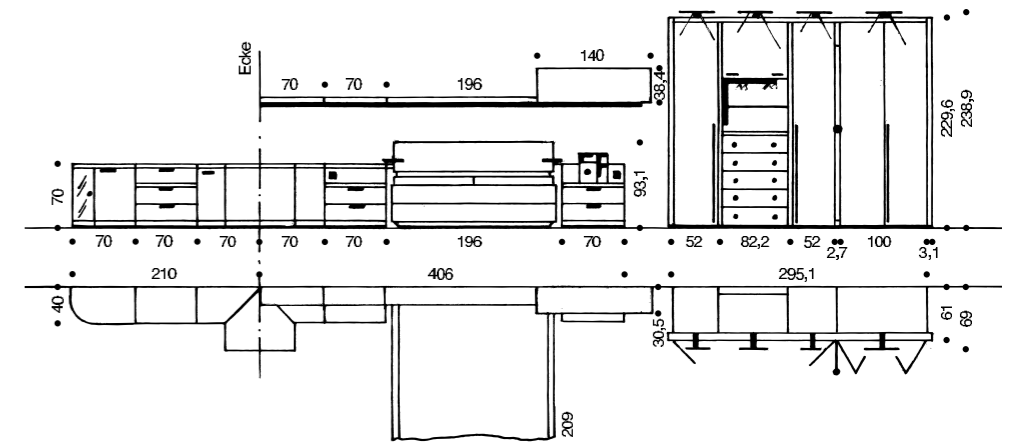

- 1 The visual effect achieved by the "floating" bed with a lying height of 42 cm effortlessly matches the light and airy feel of LA VELA II and the low units of this range.
- 2 The headboard overlay is available in a different finish, in accent colour or in leather.

Version: structured beech, white lacquer, high-gloss white, white lacquered glass Chair: D 19

Experience open space.

Rooms with unusual dimensions, layouts and architectural features tend to have a special atmosphere that is inspirational to extraordinary design ideas. LA VELA II always delivers the perfect solution to any such architectural

treasure. A wide choice of sizes and complimentary height reductions in 1 cm increments on hinged and folding door wardrobes makes planning easy.

Version: white lacquer, high-gloss sand, white lacquered glass Chair: D 20

Perfect function.

The bedroom is above all a room to rest and relax. However, it also serves as dressing room and storage space as well as a place to retreat to – to watch television, write letters, read and much more. LA VELA II is the perfect

choice to find attractive solutions for all of these requirements and offers so much more than being just a beautiful bedroom.

Version: white lacquer

1 Comfort package: the compact bed offers a comfortable lying height of 46.4 cm. The curved leather headboard overlay is perfect to lean against. Both, the ambient lighting behind as well as the bed reading light with swan neck, provide eye-friendly brightness using LED technology. The indirect bedside lighting and the drawer lighting offer light when and where it is needed, without having to switch on other – possibly disturbing – light sources.

2 One bench – three functions: to sit on, for storage and as a clothes rack. The 123.2 cm wide bench has clothes hangers on both sides, which can be pulled out to a height of 85 cm. Comfortable seat height: 45.5 cm.

3 The compact bed is a storage miracle. The ALL FLEX D base frame (adjustable head and foot section, foot section via gas pressurised spring – LIFT functionality – can be folded up) allows perfect use of the free space underneath the lying surface for larger or rarely used items.

4 Indispensable for getting dressed or undressed or when choosing what to wear: the swing-out clothes hanger. When not required, it easily hides in the centre panel and becomes invisible.

LA VELA II compact

Useful. The mobile console with a swing-out height adjustable console top is the ideal partner for the bed on legs with lying height 2. It runs along the side of the bed on an aluminium track on roller bearings.

Voluminous. The 46.4 cm high compact bed makes perfect use of the storage space underneath the base frame.

Outstanding. The LA VELA II bed on legs in both lying heights offers plenty of room for a mobile linen box underneath the bed.

Natural. Choose LA VELA II in walnut or structured beech for the bedroom. These finishes beautifully highlight the dovetail joints of the box drawers in the open suspended glass units.

Brightening. A bedroom requires glare-free lighting in the right place at any time: ambient lighting behind the headboard, LED swan-neck bed reading lights and LED bedside lighting for beds on legs.

Functional. The TV compartment behind the sliding door is 80.1 cm high, 93 cm wide and 29 cm deep. A 3-dimensionally adjustable flat screen bracket perfectly positions the TV.

Vertical. The 82.2 cm wide intermediary unit with vertical sliding door comes with two open compartments at the top (one with a fixed wooden shelf, one with an adjustable glass shelf) and five spacious drawers underneath.
