

## XPERT & SPOT – the perfect combination!

An XPERT desk is the perfect choice. You can add clever and functional units according to your requirements. Ergonomically perfect: the desk chair SPOT. A special gas-

pressurised spring provides a unique adjustment range from 32 to 50 cm seat height.

Version: oak sand, polar white lacquer

XPERT/SPOT

- 1 A concealed gas-pressurised spring allows the smooth tilting of the desk top up to an angle of 30°.
- 2 The optional rail system with 2 DIN A4 trays, pencil tray and plug-in box ensures that everything is at hand.
- 3 Rollin' around: the mobile container is always in the right place.
- 4 SPOT: with or without armrests for relaxed sitting. The patented cross frame is available with hard castors for soft floors or – if required – with soft castors for hard floors. SPOT has of course been awarded the GS sign for proven safety by the TÜVRheinland.

 Edition 6/2006

## The chair that grows with you.

Start off small and grow. We have developed SPOT because it perfectly adapts to everybody who is still growing. The

seat height can be adjusted up to 50 cm, a comfortable height should you grow up to 2 metres.

Patent: the gas-pressurised spring can be adjusted by an additional 5 cm, providing seat heights from 32 cm to 50 cm.

Standard: hard castors for soft floors.  
Optionally available: soft castors for hard floors.

The height adjustment is very user-friendly, even for children.  
The front edge is softly upholstered.

The SPOT swivel chair has been awarded the GS sign for proven safety by the TÜV-Rheinland.

Fabulous colours – cool design. You are probably the only one who sits on such a chair! The comfortable seat and back rest are covered in lush red and dark blue.

Bicoloured and cool. The chair is available in blue and turquoise – it might even be the perfect match to your favourite outfit?

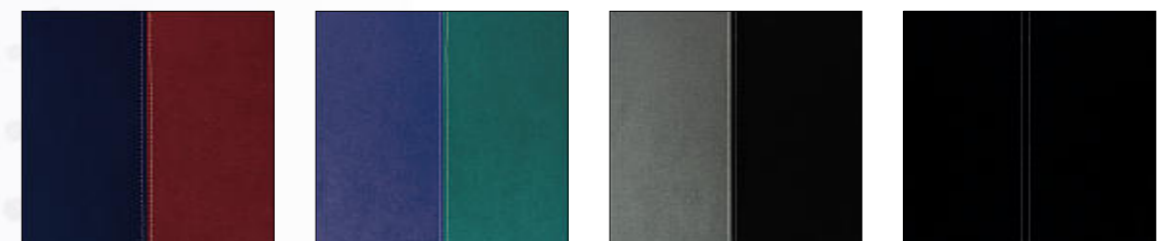

Pretty grown up or pretty cheeky? Both! If you choose the version without arm rests, you will have more elbow room. Just try it.

Almost like Dad's director's chair ... The black cover and comfortable arm rests make SPOT look like a professional office chair – which it is, of course.

### Fabrics/upholstery:

Bottom seam always black, sewing thread always white, covers made from microfibre, upper side 100 % polyester, underside 70 % polyester, 30 % cotton.
